juice pack powerstation duo
user manual

mophie **juice pack** powerstation duo for tablets, smartphones & other USB devices

Welcome

Congratulations, you've purchased the latest product from mophie that can charge virtually any two USB devices simultaneously with its dual charging ports. The mophie juice pack powerstation duo is also capable of charging at up to 2.1A, making it perfect for use with even the most power-hungry of tablet devices.

Because the powerstation duo is universal and will work with most USB devices, it's hard to be specific about how much additional power you will get – it depends on what kind of battery you are charging and what you're using it for. But at 6000mAh, rest assured that this thing will keep you going for hours.

Package Contains

- mophie juice pack powerstation duo
- User manual
- USB charging cable
- The opportunity to go for days without a power outlet

Features

The powerstation duo was engineered to provide super high-current charging with an unmatched capacity for its size. With charging output of up to 2.1 amps, the powerstation duo can handle all of your power-hungry USB devices, including all generations of iPad.

Here's a rundown of why this is the perfect device:

1. 6000mAh device that is compatible with just about any USB device.
2. High-density, high-output battery charges at speeds of up to 2.1 amps. That's 4 times faster than traditional USB batteries!
3. Capable of charging the power hungry iPad and other large USB-powered devices.
4. Check the fuel tank with the 4 LED charge status indicator – always know before you go!
5. Rechargeable for over 500 cycles (way better than average and that's full cycles, partials don't count. go ahead, top it off.)
6. Built-in short circuit, overcharge and temperature protection. mophie's got your back.

Compatibility

The powerstation duo has been designed principally for the latest generation of popular smartphones and tablets. If you experience any issues with charging your specific device, please ensure the powerstation duo is fully charged and check out the FAQ section of mophie.com for helpful tips and tricks. As always, and for whatever device you have – please read through all of the warnings in this manual very carefully before using this product.

Charging your juice pack

Connect your powerstation duo using the included micro USB cable. You can charge your juice pack powerstation duo using your computer or using a third party "Works with iPhone" USB wall adaptor. You can even use your iPad wall adaptor, which is the fastest method currently available. (The LEDs located on the top of the device will blink when charging, after 30 seconds the lights will turn off. Press the status indicator before you disconnect to make sure you are fully charged.)

Charging your device using the juice pack

The powerstation duo may be able to charge two smartphones simultaneously, but due to the high current required by tablets, it is only able to supply a 2.1A charge to one device at a time. Connecting the larger device first, such as a tablet, ensures the most efficient charge for that device and still allows you to charge a smartphone or other USB device with a smaller battery capacity. Once charged, simply unplug your device and store your powerstation duo until you're ready to charge again.

Checking the status of the juice pack

You can check the amount of juice your powerstation duo has by pressing the button on the side of the device. There are 4 total LEDs. When the button is pressed the LEDs will illuminate for several seconds. Four LEDs means that the juice pack is fully charged and one LED means that it's almost empty.

To keep your juice pack operating to its fullest potential, make sure to do the following:

1. Keep your juice pack dry and away from moisture and corrosive materials.
2. Do not wash the juice pack with harsh chemicals, soaps or detergents. Just wipe the case with a soft, water-dampened cloth. Wipe the pins gently with a soft, dry cloth.
3. Re-charge your juice pack once every three months when not in use, and remember to charge it for one hour before putting it away the first time.

Warranty

At mophie, we are dedicated to making the best quality products we can. To back this up, your mophie juice pack is warranted for 1 full year from the date of purchase (this warranty does not affect any statutory rights that you may be entitled to). Keep a copy of your purchase receipt as proof of purchase. Be sure to register your product at mophie.com to activate it and check for the latest product updates as they develop. Failure to register your product or to provide proof of purchase may void the warranty.

Warning

Read all instructions and warnings prior to using this product. Improper use of this product may result in product damage, excess heat, toxic fumes, fire or explosion, for which damages you ("Purchaser"), and not mophie, LLC ("Manufacturer") are responsible.

- ⚠ The powerstation duo should be operated only in open-air conditions. It should not be operated in an enclosed, unventilated space such as a carrying bag, pocket, or purse. Failure to follow these instructions may cause damage to the powerstation duo by overheating.
- ⚠ Do not store battery in high temperature environment, including intense sunlight heat. Do not place battery in fire or other excessively hot environments.
- ⚠ Be cautious of excessive drops, bumps, abrasions or other impacts to this battery. If there is any damage to the battery such as dents, punctures, tears, deformities or corrosion, due to any cause, discontinue use and contact manufacturer or dispose of it in an appropriate manner at your local battery recycling center.
- ⚠ Do not disassemble this battery or attempt to re-purpose or modify it in any manner.
- ⚠ Do not expose this battery to moisture or submerge it in liquid. Keep battery dry at all times.
- ⚠ Do not attempt to charge battery using any method, apparatus or connection other than the device's USB connector. For questions or instructions for the various ways to charge the juice pack refer to this manual's "Charging your device using the juice pack" and "use summary" sections.
- ⚠ Do not attempt to replace any part of this battery.

- ⚠ If this battery is intended by Purchaser to be used by a minor, purchasing adult agrees to provide detailed instructions and warnings to any minor prior to use. Failure to do so is sole responsibility of purchaser, who agrees to indemnify Manufacturer for any unintended use/misuse by a minor.
- ⚠ All batteries have gone through a thorough quality assurance inspection. If you find that your battery is excessively hot, is emitting odor, is deformed, abraded, cut or is experiencing or demonstrating an abnormal phenomenon, immediately stop all battery use and contact Manufacturer.
- ⚠ For extended storage, first charge your battery for one hour.
- ⚠ Never dispose of batteries in the garbage. Disposal of batteries in the garbage is unlawful under state and federal environmental laws and regulations. Always take used batteries to your local battery-recycling center.

Legal

This Battery is meant for use only in conjunction with the appropriate mobile device. Please consult your device packaging to determine whether this Battery is compatible with your particular mobile device. Manufacturer is not responsible for any damages to any mobile device incurred through the use of this product.

Manufacturer shall not in any way be liable to you or to any third party for any damages you or any third party may suffer as a result of use, intended or unintended, or misuse of this battery in conjunction with any device or accessory other than the appropriate mobile device for which this battery is designed. Manufacturer will not be responsible for any damages you or any third party may suffer as a result of misuse of this battery as outlined above. If you are responsible for battery use with an unintended mobile device and damages result from such use, you agree to indemnify Manufacturer for any resulting injuries to any third part(ies), mophie, mophie juice pack powerstation and the mophie logo are registered in the U.S. Patent and Trademark Office and are registered and pending in other countries. Patents pending in U.S. and other countries. iPod, iPhone and iPad are trademarks of Apple Inc., registered in the U.S. and other countries. All rights reserved.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced technician for help.

CAUTION: To comply with the limits of the Class B digital device, pursuant to Part 15 of the FCC Rules, this device complies with Class B limits. All peripherals must be shielded and grounded. Operation with non-certified peripherals or non-shielded cables may result in interference to radio or reception.

MODIFICATION: Any changes or modifications of this device could void the warranty.

FAQ

Will the juice pack powerstation duo charge my iPhone, iPod or iPad?

You bet. The juice pack powerstation duo is fully compatible with every iPhone, iPod and iPad. As a matter of fact, you can charge any two of the three at AT THE SAME TIME!

Will the juice pack powerstation duo charge two iPads?

Not recommended. We suggest getting an additional mophie juice pack powerstation duo for charging a second iPad.

Will the powerstation duo charge my device?

The powerstation duo has been designed to charge a variety of USB devices – specifically smartphones and tablets. We have done extensive testing on a variety of products and can assure you that this device is fully compatible with most smart devices available today.

Which port is used for charging the powerstation duo and which ports are used to charge my device?

Connect your cable using the bigger, rectangular USB ports to charge your devices. The smaller, micro USB port in the middle is used to recharge the powerstation duo.

Why aren't the LEDs blinking while the juice pack is charging?

After connecting to a power source, the LED status indicator will start blinking to indicate charging. The lights will turn off after 30 seconds allowing for a good night's rest. Remember to check the status indicator before you disconnect to make sure you are fully charged.

How many charge cycles do you get in the juice pack powerstation duo?

The juice pack powerstation duo is rechargeable for over 500 cycles (These are full cycles. Partial cycles don't count as full. So, you can charge your juice pack 10% of the way 10 times before it counts as a complete cycle.) Don't be afraid to top it off!

Can I charge my device while charging the powerstation duo?

Sorry. This device does not have pass-through capability. Please charge the powerstation separately from other devices.

What is mophie's return policy?

mophie reserves the right to claim a 20% restocking fee upon return. (For a full "Return Policy", please go to mophie.com)
